

ASX RELEASE

23 July 2008

Attention: Company Announcements Section, ASX Limited

Correction to Share Registry Contact Details

Tissue Therapies Limited wishes to advise of instances where incorrect telephone details for callers outside of Australia and Locked Bag postal details for the Company's Share Registry, Link Market Services, appear in the Share Purchase Plan documentation that was released to the market on 21 July 2008.

The telephone number supplied for callers outside of Australia is no longer in service.

The correct details which are reflected in the offer documentation being mailed to Shareholders are as follows:

Telephone contact for callers outside of Australia +61 2 8280 7454

Postal address The Share Registry – Tissue Therapies Limited
Link Market Services Limited
Locked Bag 3415
BRISBANE QLD 4001

Attention is drawn to the fact that Shareholders calling within Australia wishing to obtain information regarding the Tissue Therapies' Share Purchase Plan, can contact the Link Market Services on 1300 554 474.

Yours sincerely

Dr Steven Mercer
CEO, Tissue Therapies Limited
Telephone: 07 3839 9938

Email: s.mercer@tissuetherapies.com

About Tissue Therapies Limited

Tissue Therapies Limited is an Australian company developing biomedical technologies for wound healing, tissue and various cell culture applications.

The Company has worldwide exclusive rights to commercialise VitroGro®, a platform technology developed by tissue engineering experts at the Institute for Health and Biomedical Innovation at QUT for enhancing cell growth and migration. VitroGro® has particular commercial applications in wound healing, tissue regeneration, stem cell therapies and other cell culture uses.

Based on its VitroGro® platform technology, Tissue Therapies is developing more effective medical treatments for wounds and burns, integration of orthopaedic and medical implants, and other applications such as cosmeceuticals.

Tissue Therapies also provides cell culture reagents to enhance the growth of mammalian cells for emerging cell-based therapies, along with research and industrial cell culture markets internationally.
