

**ASX ANNOUNCEMENT**

**29 July 2009**

## **Appendix 4C Quarterly Report**

Biomedical company, **Tissue Therapies Limited (ASX: TIS)** has released the additional commentary below, in support of the following Appendix 4C report, for the period 1 April to 30 June 2009.

1. The cash expenditure of the Company of \$513,800 for the quarter ended 30 June 2009 was less than the prior quarter, as expected and consistent with expenditure forecasts.
2. Cash expenditure for the next 2 quarters is forecast to continue to reflect decreases in research and development expenditure. It is expected that Tissue Therapies will have sufficient cash reserves for at least the next 2 quarters ie. at least until January 2010.
3. The ongoing human trial of VitroGro® in Toronto, Canada for the treatment of diabetic, venous and pressure ulcers continues to produce excellent results. Additional venous ulcer patients will be recruited into the Australian clinical research centre run by Prof. Michael Stacey and excellent preclinical results have been reported for new single-protein formulations of VitroGro®. (please see **ASX: TIS Excellent Preclinical and Progressive Clinical Trial Results, 23 July 2009.**)
4. The payment of share issue costs in Section 1.20 of \$79,200 was for residual costs invoiced in the quarter ending 30 June 2009 for the successful Rights Issue completed during February 2009. This raised \$1,896,200

The cash position of the Company and further fund raising options are under constant review by the Board.

## About Tissue Therapies Limited

Tissue Therapies Limited is an Australian company developing biomedical technologies for wound healing, tissue and various cell culture applications.

The Company has worldwide exclusive rights to commercialise VitroGro®, a platform technology developed by tissue engineering experts at the Institute for Health and Biomedical Innovation at Queensland University of Technology for enhancing cell growth and migration. VitroGro® has particular commercial applications in wound healing, tissue regeneration and cell culture.

Based on its VitroGro® platform technology, Tissue Therapies is developing more effective medical treatments for wounds and burns, integration of orthopaedic and medical implants, and other applications such as cosmeceuticals.

Tissue Therapies also provides cell culture reagents to enhance the growth of mammalian cells for emerging cell-based therapies, along with research and industrial cell culture markets internationally.

**Notes**

+ See chapter 19 for defined terms.

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
  
- 2 The definitions in, and provisions of, *AASB 107 Cash Flow Statements* apply to this report except for the paragraphs of the Standard set out below.
  - Aus 20 1- reconciliation of cash flows arising from operating activities to operating profit or loss
  - 39 & 40- itemised disclosure relating to acquisitions and disposals
  - 48 - disclosure of restrictions on use of cash
  
- 3 **Accounting Standards.** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with
